

What Parents & Educators Need to Know about ZEPETO

FOR SALE

AGE RESTRICTION
14+

WHAT ARE THE RISKS?

NO PARENTAL CONTROLS

Although ZEPETO is intended for users aged 14 and up, it lacks built-in parental controls or age verification, instead relying on safety features on the device it's played on. This lack of a parental controls feature raises concerns about whom children may be interacting with on the platform.

INAPPROPRIATE CONTENT

As a mix between a virtual world and a social media platform, ZEPETO features a wide range of user-generated content. Some areas may reference mature themes, such as TV series aimed at adults, or include inappropriate material created by other users – all of which children may stumble across without warning.

STRANGER DANGER

By default, users can message and interact with anyone else. This open communication creates an environment where predatory individuals can pose as peers to gain trust, potentially leading to grooming, scams, and exploitation, such as blackmail.

Hi there...

CYBERBULLYING RISKS

As with many social platforms, children can be targeted for bullying, harassment or exclusion by both strangers and their peers. Unfiltered chat and avatar-based interaction can allow bullying and other forms of harassment to continue, impacting children's wellbeing and mental health.

ADDICTIVE GAMEPLAY

Daily log-in rewards, such as coins, and in-game incentives can encourage compulsive behaviour, with some users feeling pressure to check in constantly to avoid missing out. This can lead to excessive screen time and conflict with schoolwork or offline hobbies or commitments.

SPENDING REAL MONEY

While the game is free to play, ZEPETO includes a store offering virtual clothing and accessories for avatars. These items are bought with 'ZEMS' – a paid currency – and the appeal of exclusive items or branded collaborations can make it easy for children to overspend.

Advice for Parents & Educators

ENABLE PRIVACY SETTINGS

Visit the child's profile settings to restrict who can send messages – options include Everyone, Followers Only, or No-one. Encourage children to avoid sharing any personal information on their profile, as this is visible even on private accounts.

LIMIT IN-APP TIME

Use parental controls on Android (Google Family Link) or iOS (Screen Time) to restrict app usage by setting hours or daily limits. Encouraging breaks can help children develop healthier habits and reduce app dependency.

CONTROL SPENDING

To prevent accidental purchases, set up purchase approval systems such as Apple's Ask to Buy or Google's Purchase Approvals. Alternatively, consider removing payment methods or using pre-paid cards with set budgets.

HAVE REGULAR CONVERSATIONS

Talk openly with children about whom they interact with online and the kinds of things they see or experience. Encourage them to speak up if someone makes them uncomfortable or if they come across inappropriate content. Teach them how to recognise red-flag behaviours such as asking for secrets, giving gifts, or requesting personal information.
